PROJECTS

1. MiniStore – E-Commerce Website

Developed a responsive e-commerce template for various product categories, Mobiles, electronics, and watches. Added key features like product pages, shopping cart, checkout process, and payment integration. Focused on user experience with an easy-to-navigate interface and optimized the template for SEO and mobile devices.

---->Html, Css, Bootstrap,React js

2. Mr&Mrs – Free Single Page Wedding Service Website

Mr&Mrs is a beautifully crafted, free single-page website template designed specifically for wedding service providers and event planners.This template provides a modern, responsive design that highlights the most important information in a clean, user-friendly layout, allowing potential clients to quickly understand offerings and contact service providers.

--->Html,Css, JavaScript, Bootstrap.

3. Classroom Assignment Tracker For Efficient Task Management   (MAR 2024-JUNE2024)

This system allows teachers to create , organize , and track assignments efficiently.With features such as deadline notifications , progress tracking and grading capabilitiesthis tracker enhances the overall assignments management process, saving educators valuable time and ensuring a smooth work flow in academic Settings project .
